Her parents are also taking care of 2 other children at home.	\$600.00 Mortgage Bill Paid 8-17-10
Karson is a 1 year old diagnosed with congenital heart disease. He has been hospitalized 4 times since birth and undergone surgical interventions that include a hernia repair, appendectomy, bowel resection and G-tube placement. He is currently in the hospital. His mother speaks little English and cannot drive so his father must take off work to take care of Karson in the hospital. They also have another son that has a congenital heart defect.	\$300.00 Rent Bill Paid 8-21-10
Lailani is a 9 year old diagnosed with vocal cord paralysis resulting in numerous surgeries on her airway and extensive stays in the PICU. She had 2 separate surgeries in May and her family just had to cancel a scheduled surgery because they couldn't afford the drive from Chicago to CHOP. The ultimate goal is to reconstruct her airway so that her tracheostomy can be removed.	\$500.00 Electric Bill Paid 8-21-10
Geovany is an 18 year old cardiac transplant patient with chronic kidney disease, chronic anemia and has had multiple admissions for small bowel obstructions. He is undergoing testing to determine if he has cancer. Geovany's mother has been at his bedside since admission, has a limited support system and also has to care for his other 2 siblings.	\$296.29 Electric Bill Paid 8-22-10

Patient Medical History	Family Assistance to Date
Addison is a 3 year old with multiple life-threatening issues. She was inpatient at Texas Children's Hospital for one month, followed by a one month stay at Thibodeaux General Hospital. Addison is currently inpatient at CHOP awaiting the results of her endoscopy and Pulmonary testing. She resides in Louisiana with her parents and 2 siblings. Her parents have both taken unpaid leave from their jobs to be with Addison and take care of their other children.	\$428.61 Auto Insurance Paid 8-25-10
William is a 10 year old with Cystic Fibrosis. He is seen outpatient every 2 months to monitor his changes in respiratory, growth and nutritional status. If there is no improvement in his medical status, he will be admitted to CHOP for IV antibiotics for a minimum of two weeks. William's father was in the ICU for a month when William had to be admitted inpatient for almost a month as well. His mother had to reduce her work hours significantly in order to be with her husband and son in the hospital while taking care of her 3 other children at home.	\$350.00 Electric Bill Paid 8-26-10
Bryanna is a 4 year old twin with a significant medical history. She was hospitalized on June 7 where she remained for 2 months. Bryanna has made gains, but still requires braces on her legs to walk. She is now receiving out-patient PT and OT twice a week. She lives with her parents and 2 sisters. Her father had to take time off from work to be with her during her hospitalization.	\$400.00 Auto Insurance Paid 8-27-10
Alex is a 17 year old injured in a car accident on her way home from her prom in May. She sustained a severe traumatic brain injury, right scapular fracture and laceration of her spleen. Alex has been in the hospital since her accident and has made enough gains to hopefully be discharged in September. Her mother has been on Family Leave from her job and is working out a plan for supervision as Alex cannot be left alone nor return to school. Both parents have taken time off from work but have remained current with most bills.	\$500.00 Electric Bill Paid 9-1-10
Joey is an 11 year old diagnosed at birth with chronic lung disease, CHS, Hirschsprung's disease, cardiac problems and more. He sleeps with a ventilator, has a pace maker and requires frequent appts at CHOP. Mom is currently on maternity leave and takes care of 2 kids alone as her boyfriend works in New Jersey during the week.	\$500.94 Auto Bill Paid 9-12-10

Sarah is a 3 month old with congenital nephritic syndrome, which results in infection, malnutrition and kidney failure. It can lead to death by 5 years of age. She has been hospitalized since birth. Her parents have spent most of their time in the ICU with Sarah. She will continue weekly visits to the clinic with her parents taking over daily infusions at home.	\$400.00 Mortgage Bill Paid 10-26-10

Patient Medical History	Family Assistance to Date
Gianna is a 9 month old with Beckwith Weidman Syndrome who was born prematurely and was mechanically ventilated since birth for chronic lung disease. She was born with spinal meningitis and other infections. Her syndrome left her with an abdominal wall defect that allows the abdominal contents to grow in a sac outside the body. That has since been repaired and Gianna was discharged, but she is frequently readmitted to CHOP for illness. She will eventually need tracheal surgery and will be followed with abdominal ultrasound until age 10 because she is at risk for Wilms tumor & liver tumors. Both parents lost their jobs because of her many complications.	\$445.02 Electric Bill Paid 10-26-10
Joseph is a 6 year old who was born prematurely & diagnosed with bronchopulmonary dysplasia. He has a tracheostomy and requires the use of a ventilator when sleeping or ill. He may require a tracheal revision to one day aid in weaning him from the ventilator. His mom was let go of her full-time job due to Joseph's care and lack of nursing. They also travel to Boston for follow-up visits.	\$440.49 Electric Bill Paid 11-2-10
Jason was an 11 year old diagnosed in 2008 with synovial cell sarcoma. He relapsed multiple times and unfortunately passed away on October 26th. Jason's mom stayed home to care for him full time and his dad was laid off from his job in October. Finances are very tight and the ordeal has taken it's toll on the family.	\$250.00 Funeral Costs Paid 11-2-10
Jacob is a 2 year old diagnosed with AIDS, Encephalopathy and multiple related infections causing him to be quite ill. He was released from the hospital in late July but receives daily home nursing and physical therapy services. Jacob's mother was working but lost her job due to his hospitalizations. She also lost her housing and her husband is currently dying and in a nursing home. They had only 10 days to find a new place to live.	\$500.00 Rent Bill Paid 11-3-10

Jayden's mother was fired from her job as a result of his prolonged termination.	\$1,000.00 Car Insurance Bill Paid 8-27-13
Za'ir is a 9 year old who had a devastating near drowning incident as a family picnic last summer. His family found him unconscious after being under water for an estimated 10 minutes. He was taken emergently to CHOP and his post incident course was complicated by severe neurologic impairment, encephalopathy, epilepsy and respiratory failure. Since the incident, Za'ir requires round the clock care with a tracheostomy tube, is mechanically ventilated 24 hours a day, is non-verbal and has a complicated road ahead of him.	\$500.00 Electric Bill Paid 9-9-13
Murphy is an 11 month old who was admitted to Grandview Hospital at 2 months of age with RSV and Rhino virus. He was there for 5 days and then transported to CHOP for 19 days. He was in and out of the hospital for the past 6 months and in July, he received a bilateral lung transplant. Murphy is currently inpatient for an undetermined amount of time.	\$211.83 Water & Electric Bills Paid 9-10-13
Arihanna is a 2 year old with history of Pearson's Syndrome. Since the beginning of the year, she has been hospitalized twice every month with at least one outpatient clinic visit per week. She will continue to have weekly outpatient clinic visits and inpatient hospitalizations for a long time.	\$586.41 Electric Bill Paid 9-11-13

Patient Medical History	Family Assistance to Date
Wesley was born at 24 weeks gestation in March. He was transferred to the NICU in August for more specialized care for his chronic lung disease and pulmonary hypertension. His family lives 2.5 hours away from the hospital so traveling to see him is quite costly. Sometimes they avoid roads with tolls to save money, but it increases their travel time to almost 4 hours one way. Wesley also has 3 siblings at home who don't normally get to visit him because it's too expensive.	\$871.97 Electric and Rent Bills Paid 9-14-13
Maddison is a 4 year old followed for the treatment of a rare illness called Pompe Disease. It is an often fatal disorder that affects the muscles due to the inability of the body to break down glycogen. She is seen by multiple specialists at CHOP and her last inpatient stay was in July. Due to her multiple equipment needs, both parents accompany her to her appointments.	\$379.90 Car Payment Paid 9-24-13
Owen and his twin brother were born in April at 24 weeks gestation. Owen is currently hospitalized in the NICU at CHOP after being transferred from St. Barnabas in September. He is being evaluated for further airway and possible tracheostomy surgery. His parents travel by car 2 hours one way to visit and sometimes take the train which costs \$120 round trip. Owen's mother was fired from her job because she had worked there less than a year and wasn't eligible for FMLA.	\$1,348.29 Mortgage Payment Paid 9-25-13
Kara is a 3 year old recently diagnosed with Cystic Fibrosis and pancreatic insufficiency. Her family had been searching for a diagnosis for Kara since one year of age due to her cough, sputum production and multiple loose foul smelling stools. They have accrued enormous medical bills for all the testing that was done prior to her diagnosis. She will be followed closely in the future and will require inpatient services for IV antibiotics, airway clearance, pancreatic enzymes & more.	\$500.00 \$247.24 Mortgage Payment and Water Bill Paid 9-27-13
Ariadna is a 16 year old recently diagnosed with lupus nephritis. She was first hospitalized from 8/8-8/15 and re-admitted on 8/26 where she currently remains. Unfortunately for the foreseeable future, she will need hemodialysis every Monday, Wednesday and Friday as her kidneys are no longer working. In addition to dialysis, she will need to continue following up in additional divisions regularly.	\$1,200.00 Rent Bill Paid 9-27-13
Cayden is a 5 year old diagnosed prenatally with Cystic Fibrosis. He has had 3 admissions to CHOP this past year due to increased respiratory symptoms requiring IV antibiotics. This came after a prolong treatment of oral antibiotics that did not help him. He is currently inpatient and remains on IV antibiotics. When Cayden is inpatient, his mother has to take FMLA form work to stay with him.	\$352.24 \$238.69 Mortgage and Verizon Bills Paid 9-30-13
Zoe is a 1 year old diagnosed with Spastic Quadraplegic Cerebral Palsy, chronic lung disease, tracheostomy status, hearing loss, g-tube feeds and dyphagia. She was born at 28 weeks gestation and had a complicated medical course resulting in a 9 month hospital stay. Due to Zoe's medical equipment, the family's household bills have increased significantly since her arrival home.	\$443.49 Electric Bill Paid 10-1-13

Patient Medical History	Family Assistance to Date
Angelica was diagnosed with Acute Myelogenous Leukemia in July 2011, a few months before her 3rd birthday. She is terminally ill and expected to remain hospitalized while receiving end of life treatment. Her guardians are her grandparents who have both had to give up their employment while one of them stays at the hospital, and the other cares for Angelica's 7 year old brother.	\$1,094.60 Car payment/ cell phone bill
Christian is a 14 year old boy with Muscular Dystrophy. He is now wheelchair bound and requires around the clock care. He has undergone spinal surgery to try to correct his scoliosis but still requires a trach and 24 hour ventilation. In the spring of 2013 his family relocated from Florida to Philadelphia and his mother has been unable to work since then due to Christian's constant need of care and also having to care for her younger daughter at home.	\$500 Utility Bills Paid 10-10-13
Aydin was born full term in September of 2013, but his 16 year old mother had a tough delivery and he suffered hypoxic ischemic encephalopathy and meconium aspiration. He was transferred to CHOP because he was having seizures. Aydin's grandmother is the sole financial provider for him, his mother, and his mother's four other siblings.	\$300 Utility Bill Paid 10-22-13
Both Grayson (6) and her sister Caitlin (15) have Cystic Fibrosis, and receive their specialty care at CHOP. They both also suffer from Asthma, MRSA colonization, and multiple allergies to antibiotics which makes treatments even more difficult. Grayson was hospitalized in September for a pulmonary exacerbation and drug desensitization, after being treated for 20 days she was readmitted and has been hospitalized since. Their father is the primary financial support as their mother is caring for two children with CF, as well as her son.	\$500 Electric Bill Paid 10-22-13
Nicholas is a 6 year old diagnosed with tracheal stenosis, chronic lung disease, hypotonia, hearing loss, and developmental delay. He was born at 27 weeks and had a tracheostomy until recently. He has been inpatient at CHOP since October 1st and will remain hospitalized for at least another 4-6 weeks. Nicholas' mother has had to take unpaid FMLA after commuting 2 hours home 1-2 days per week just to make a little income.	\$245.30 Gas Bill Paid 10-23-13
Liam is a 2 year old little boy who was diagnosed with acute lymphoblastic leukemia in June and has been receiving inpatient chemotherapy every other week for four days or longer (if needed). Liam resides with his parents and younger brother 2 hours away from the hospital where he receives his treatments. The transportation and co-pays has placed considerable strain on the family's finances.	\$437.79 \$327.24 Utility Bill/Car loan Paid 11-1-13
Sanaa is an 18 month old girl who was born at 34 weeks with tracheomalacia, BPD, PDA and GERD. After spending her first 8 months at CHOP she was discharged but has had several emergency department visits and admissions. Her mom tries to balance working full-time and being the only caregiver trained in Sanaa's care. Because of all the missed work shifts due to Sanaa's frequent hospitalizations they have fallen behind with their utility bills.	\$500 Utility Bill Paid 11-1-13

Patient Medical History	Family Assistance to Date
Riley is a five year old girl who was born with persistent fetal circulation and Atrial Septal Defect. She then developed idiopathic pulmonary hypertension and autoimmune hyperthyroidism. She is currently on the list for a bilateral lung transplant. She has required numerous admissions to CHOP with the most recent one for over three weeks due to being rhinovirus positive. Riley's mother has had to take unpaid leave from work and has no FMLA left with her employer.	\$1,100 Rent Paid 11-14-13
Faith was born prematurely at 26 weeks and was transferred to the NICU at CHOP on September 1st for concern of necrotizing enterocolitis. Her parents and 3 year old sister travel a little over 2 hours one way to spend time with her, and with a large increase in transportation costs and missed days from work they recently received a letter threatening foreclosure.	\$750.00 Mortgage Paid 11-19-13
2 Month old, Angela, was born with a cleft lip and cleft hard palate, and has Polydactyl. She was admitted at 3 weeks old for an acute life threatening episode experienced at home. She has since had a tracheostomy and a gastrostomy tube placed. She continues to have medical issues and growth restriction. Her mother has not returned to work since Angela's hospitalization and is struggling with monthly expenses.	\$1,311.62 Rent/Insurance Paid 11-20-13
Mason was born with congenital heart disease, and required immediate open-heart surgery in order to survive. Both parents chose to be at Mason's bedside for the entire 11 days he was in the hospital, but are now struggling to get caught up financially with all the income they lost, and the medical bills coming in.	\$261 \$500 Electric/ Rent Paid 11-29-13
Anna is an 11 year old orphan from Liberia who was adopted 6 months ago. She suffers from spinal tuberculosis and kyphoscoliosis, which has caused paraplegia. She was admitted to CHOP for spinal surgery in October, and although it was successful she'll require a lot of physical therapy, and will remain in a wheelchair. Her mother tries to spend at least 4 days a week at Anna's bedside, and she has fallen behind as bills continue to pour in.	\$1,000 Mortgage Paid 12-3-13
Jaely is a 30 month old who was admitted to the hospital with hypoxic respiratory failure, aspiration pneumonia, status asthmaticus, and influenza A. She has been hospitalized 5 times this year for respiratory distress. Her dad was laid off in June and Mom is taking FMLA time off of work to remain at Jaely's bedside. They were able to just scrape together their mortgage payment last month, but did not have sufficient funds for insurance, gas, or electric and their December mortgage payment is now due too.	\$215.48 Gas Bill Paid 12-14-13
Elijah is a 10 year old boy diagnosed with Cystic Fibrosis with pancreatic insufficiency. He was hospitalized twice this year and has had four CF related exacerbations that required increased daily physical therapy and oral antibiotics. Elijah's mother has missed many days of work, and was recently forced to quit her job. The families electric bills have become very expensive with the physical therapy device that requires electricity and having to maintain constant air conditioning because a person with CF excretes five times more sweat than a person without CF.	\$600.51 Electric Bill Paid 12-15-13

Patient Medical History	Family Assistance to Date
Quinn is a delightful 6 month old girl who was diagnosed with Neuroblastoma in September. On September 21, she had a tumor debulking surgery and had to be extubated on September 23rd due to respiratory failure. She was discharged on October 3rd, and now has inpatient chemotherapy treatments scheduled. Her family travels four hours round trip to her appointments, and her father's income has decreased as a result of her treatment schedule.	\$800.00 Rent Paid 12-16-13
Hailey is a 13 year old girl who was in usual good health until July 2013 when she started having slurred speech and seizures and was transferred to CHOP for diagnostic testing which diagnosed her with anti-NMDA encephalitis, necessitating a tracheostomy and g-tube placement. She has needed 24 hour one-to-one aide as she has become confused and aggressive. She will remain hospitalized for at least another 6 weeks. Her mother has quit her job to stay at her bedside and her father was recently fired since his leave has gone well past the 12 weeks given for family leave.	\$371.40 Heating Oil Paid 12-27-13
Bishop was born extremely premature on 6/12/13. He has chronic lung disease, requires ventilator support, and has seizures. His family spends \$30 per parent every other day to take a 3 1/2 hour train ride (one way) to visit him in the NICU at CHOP. Bishop's father is currently not working and is the caregiver to his elderly mother. His mother just graduated college but has not found work because her focus has been on Bishop.	\$200.92 Phone Bill Paid 12-27-13
Chiara is a 7 year old girl diagnosed with Acute Lymphocytic Leukemia. She is currently receiving intense chemotherapy treatments. She will likely have hospital admissions for extended periods of time given her condition. The cost of transportation (a 2 hour round-trip) in addition to her co-pays has placed considerable strain on her family's finances.	\$255.65 Electric Bill Paid 1-10-14
Caleb is a 4 month old little boy who was diagnosed with Cystic Fibrosis shortly after birth and remained hospitalized for 6 weeks for complications due to his illness. The family lives an hour away from the hospital, and they have to pay a co-pay with each appointment. Dad works full time, but makes less than \$40,000 per year, and is their only source of income.	\$800.00 Rent Paid 1-13-14
Noah is a 15 year old boy who was diagnosed with Hodgkin's Lymphoma on December 5, 2013 after being admitted to the hospital with abdominal pain. On 12/30/13 he was additionally diagnosed with Wolff-Parkinson-White Syndrome. Noah's mother has been by his side throughout his treatments and has stopped working following his diagnosis. Her unemployment assistance ended at the end of December, and they are facing eviction for late rent payment.	\$500 Rent Paid 1-13-14
Elijah is a 12 year old boy who has a history of persistent asthma that is challenging to manage. He has had frequent ER visits, and has missed many days of school. Elijah's mother tries to control his environment at home to control his asthma, but prioritizing their high electric bills for cooling and heating, their water bill has fell behind significantly.	\$98.83 Water Bill Paid 1-23-14

Patient Medical History	Family Assistance to Date
Meghan is a 19 year old with a history of epilepsy, neuromuscular scoliosis, recurrent vomiting and developmental abnormalities due to her underlying Wolf-Hirschhorn syndrome. She was admitted to the PICU on 1/11/14 for respiratory distress secondary to Influenza A. She is requiring aggressive pulmonary treatment, therapy vest, and BIPAP, and per her mom has a developmental level of an 18 month old. Mom is behind on bills since Meghan turned 19 years old she no longer receives child support payments although Meghan will be dependent upon her mother for the rest of her life.	\$200 Utility Bill Paid 1-23-14
Rahaf is a four year old girl with Acardi Syndrome who is technology dependent with a feeding pump and BIPAP. She also suffers from chronic lung disease, seizures, sleep apnea, visual impairment, and more. She has frequent medical appointments as well as multiple hospitalizations. She is currently living in a home with her parents and four siblings that has a hole in the roof which is an obvious health risk, as well as a safety risk if the roof remains in this condition.	\$350 Roof Repair Paid 1-29-14
Justin is a 19 month old with trisomy 21, seizure disorder, and un-repaired ASD. He is currently in an extended PICU admission after respiratory failure, bleeding issues, seizures, and acute renal failure. Justin's father has left work to care for him, and mom is the sole breadwinner. She has only been able to work 3 days this month, as she is also trying to deal with their broken septic tank, the heat that has gone out, and their car breaking down.	\$752.80 Mortgage Paid 2-6-14
Chase is a 29 month old boy with pancreatic insufficient Cystic Fibrosis. During the past year he has had 7 CF-related respiratory infections and an emergency appendectomy. Chase's parents have had to miss many days of work to care for him and to bring him to medical appointments, which led to an inability to keep up with their rent and utility bills.	\$1,075 Rent Paid 2-7-14
Maliyah is a 3 year old girl with recurring illnesses. Maliyah's mother is a single parent who recently stopped working due to her frequent hospitalizations, and she has fallen behind on her car payments and insurance. They rely upon their car to get Maliyah to all of her appointments.	\$161.64 \$326.76 Car/Insurance Payment Paid 2-10-14
Athena is a 1 year old girl with a long list of infections and illness including Encephalitis, Encephalopathy, Chorea, HSV stromal keratitis, and complex febrile seizures. She has a 1-on-1 aid 24 hours a day in the hospital, and Mom hasn't left her bedside. Dad has to go home during the week to work, but he makes a very limited income, and they also have a 10 year old at home to take care of.	\$550 Rent Paid 2-11-14
Adam is a 3 year old boy with spina bifida. He is also diagnosed with a neurogenic bladder and bowel and hydrocephalus related to his condition. Adam resides with his grandmother and her boyfriend after his mother neglected him while he was very young and is no longer involved in his care. His grandmother does not receive financial reimbursement for caring for Adam and her boyfriend recently lost his job due to missing too much work to care for Adam.	\$500 Electric Bill 2-24-14

Patient Medical History	Family Assistance to Date
Sal is a 7 month old boy who was diagnosed with Hemophagocytic Lymphohistiocytosis at 3 months of age and was initially treated with chemotherapy however his best option for a cure is a bone marrow transplant. Sal's mother had to quit work and his father's job has been impacted by the government shut down.	\$49.20 \$184.19 Utility/ Electric Bills Paid 3-7-14
Manuel is a 15 year old boy with is s/p spinal fusion that resulted in partial paraplegia. He receives intensive daily therapies to work on gross and fine motor skills. Their drive to the CF center is over an hour each way, and they currently do not have means to make their car payments.	\$500 Car Payment Paid 6-23-14

Patient Medical History	Family Assistance to Date
Kanu is an 8 year old boy with pulmonary hypertension that required a bilateral lung transplant. His postoperative course has been complicated by fevers and respiratory infections and he will remain inpatient at CHOP for an undetermined amount of time. Kanu and his family is from Atlanta but had to relocate to Philadelphia for his care. His mother has been unable to work, and his father was approved to do his work from Philadelphia, but has been unable to with Kanu's difficult post-operative course.	\$1,400 \$85.29 Rent/ Phone Bill Paid 6-24-14
Amani is an 11 year old girl who was diagnosed with Sickle Cell disease at birth. She recently underwent a bone marrow transplant, and remains hospitalized. She is one of five children, and neither of her parents are working since her mother was forced to quit her part-time job. The family of seven has to live off a small Social Security Benefits payment each month.	\$750 Electric Bill Paid 7-20-14
Ava Mae is a 2 year old with chronic respiratory failure, congenital hypotonia, polydactyl of fingers and toes, neonatal teeth, central apnea, and other diagnoses all suggestive of Joubert's Syndrome. She's had to have a tracheostomy and G-Tube placed and has required ventilator support all her life. Although both parents work they've had to take a lot of time off to care for Ava and her older sister, and with Ava's medical needs their electric bill is adding up fast. They just received a shut-off notice which would be catastrophic for Ava's ventilator needs.	\$597.90 Electric Bill Paid 7-21-14
Brynlee is an almost 2 year old who was born at 25 weeks gestation and diagnosed with severe BPD, grade 1 IVH, stage II ROP, PDA with left to right shunt, pulmonary hypertension, GERD, chronic lung disease, sepsis, and many developmental delays. Her parents are a young couple who do not have much of a support system. Brynlee's father works full time, but has missed a few paychecks as he's in the midst of a job transfer, and her mother had to quit her job due to her pregnancy complications.	\$726.13 Electric Bill Paid 7-24-14
Jamir is a 9 year old miracle. He had a history of asthma but nothing else until he suddenly had an exacerbation of asthma, lost consciousness, and turned blue. He was rushed to CHOP where he was diagnosed with cardiac arrest, seizures, and significant loss of oxygen. The family was prepared that Jamir was not going to survive and decided to withdraw him from the ventilator. To everyone's surprise he began breathing on his own. He has since made slow functional progress but will continue to be dependent in all of his mobility, and has a feeding tube. His mother has remained at his bedside.	\$500 Rent Paid 7-29-14
Mohamed is a 2 year old boy who has Downs Syndrome but was otherwise well until January 2014 when he experienced several strokes and seizures that put him in the ICU at CHOP. There he was diagnosed with Moya Moya disease which is a rare and progressive cerebrovascular disease that affects the brain. Unfortunately surgery is not an option, and his prognosis is extremely poor. His mom is a full time stay at home parent taking care of four other children, and his dad's income is their only income.	\$388.20 Gas Bill Paid 7-29-14

Patient Medical History	Family Assistance to Date
Eric is a 17 year old diagnosed with AML who underwent a matched, unrelated bone marrow transplant in February. He has had a very tough medical course and remains inpatient in a very guarded status. His parents have remained by his bedside as he continues to fight for his life. Along the way, Eric's father lost his job and his mother was laid off from hers. They currently have zero income.	\$191.34 \$49.94 Auto Insurance/ Water Paid 8-12-14
Angelina is a 6 year old diagnosed with complex, life threatening, congenital heart disease, Hypoplastic Left Heart Syndrome. She has undergone 2 of 3 required open heart surgeries, but is now at home on IV medication to stabilize her while she awaits a heart transplant. Her mother stays at her bedside and her father has taken unpaid leave from work. They live two hours from the hospital and have to travel back and forth twice a week, along with caring for another child at home.	\$400 Rent Paid 8-20-14
